

The Final Poster must be in two formats: hardcopy and electronic.

The electronic version has been detailed in the Poster draft description. For the electronic version, students should integrate suggestions for improvements into their final (on disc) version.

For the hardcopy, students are to bring to class a hardcopy of the poster, which should be a minimum of 3' x 5' (3 feet x 5 feet), but no larger than 4' x 6'. There is some discretion as to the specific design and appearance of the Poster, but it should conform broadly to the guidelines presented in the AAA guide (you can find a link on the course webpage).
